FIRST DRAFT OF PLATFORM

How It Seemed Likely to Be Adopted This Morning

Chicago, July 9.—Here is the text of the platform as it will probably be submitted to the convention:

We, the democrats of the United States in national convention assembled, do reaffirm our allegiance to those great essential principles of justice and liberty upon which our institutions are founded and which the democratic party has maintained from Jefferson's time to our own-freedom of speech, freedom of the press, freedom of conscience, the preservation of personal

ance of constitutional limitations.. Recognizing that the money question is paramount to all others at this time gold together as the money metals d the United States and that the first coinage law passed by congress under the unit of value and admitted sold to free coinage at a ratio measured by the silver dollar unit.

We declare that the act of 1873 demonetizing silver without me knowledge or approval of the Aperican people has resulted in the appreciation of gold and a corresponding fall in the prices of commodities produced by the people, a heavy increase in the burden of taxation and of all debts, public and private; the enrichment of the moneylending classes at home and abroad; paralysis of industry and impoverishment of the people.

We are unalterably oposed to the single gold standard, which has locked fast the prosperity of n industrious people in the paralysis of hard times. Gold monometallism is British policy founded upon British reed for gain and power and its generl adoption has brought other nations into financial servitude to London. We demand that the standard silvr dollar shall be full legal tender, equly with gold, for all debts, public an private, and we favor such legislatic as will prevent the demonetization any kind of legal tender money by prate contract.

We are opposed the policy and practice of surrending to the holders of the obligations? the United States the option reserve by law to the government by redeeing such obligations in either silver co or gold coin

We are opposed the issuing of interest-bearing bads of the United States in times I peace and condemn the trafficking vith banking syndicates which, in change for bonds and at an enormou profit to themselves, supply the fedral treasury with gold to maintain th policy of gold monometallism.

Congress alne has the power to coin and issu money, and President Jackson declard that this power could not be delegaed to corporations or individuals. We therefore demand that the power tossue notes be taken from the banks ad that all paper money shall be issud directly by the treasury department.

We hold tat tariff duties should be levied solel for purposes of revenue and that taation should be limited by the needs the government, honestly and econonically administered. We denounce s disturbing to business the republican threat to restore the Mc-Kinley lar, which has been twice condemned by the people in national elections, an which, enacted under the false ple of protection to home industry, roved a prolific breeder of trusts and monopolies, enriched the few at he expense of the many, restricted trade and deprived the proof access to their natural markets. ther changes in our tariff laws, except such as are necessary to make up the

Overmeyer of Kansas, ad-We recommend that the territory of dressing the convention, said the seat from the Atlantic states to the great Mississippi valley.

The credentials committee, not being ready to report, Gov. Altgeld, after reiterated appeals from all parts of the hall, proceeded to the platform.

He said he had not come to the convention to make speeches, but to help formulate a policy for the benefit of Americans. Nearly everything in the country, he said, was mortgaged to English money-lenders, from farms to the sewing machines of seamstresses. Bimetallism was the only hope, and the people expected that from the convention. He claimed the gold standard had lowered the prices of farm products, while the farmers have had to pay more for what they had to buy.

The governor referred to gold democrats as wanting to put halters on Americans in favor of English moneylenders. At the conclusion of the speech there were cries for Senator iams of Massachusetts said the convenrepresented, and has as much at stake as west and south, and speaks for five million spindles now silent. It Is Found That the Helpless Woman's Skull Was Crushed In By some Blunt Instrument-Her Murderer Believed to Have Committed Suicide.

Watertown, July 9-No arrest bas seen made yet, in the murder case of Mrs. Mary Bucher, the aged woman who was killed in such a brutal manner yesterday at her home in the town of Lebanon. The coroner's jury returned the following verdict: "We find that the decessed came to her death by a blow on the head with an instrument in the hands of William Zellner; and recommended that he be apprehended and held for tria! " The theory of the people where the crime was committed, is that Zellner has taken his own life.

MAY NAME BLAND.

Gov. Stone Says "Silver Dick" Will Be Nominated Today.

Chicago, July 9.—Governor William J. Stone said last night: "Richard Parks Bland will be nominated for president of the United States by the national democratic convention tomorrow."

He further said that Bland had more than a majority in the convention now and that no man had ever been defeated by the two-thirds rule in a democratic convention who had reached a majority. Missouri's governor made this prediction in the face of a flerce under-the-surface fight against his candidate. The Bland sentiment in Illinois, Nebraska, Arkansas, Tennessee and Michigan was roughly handled yesterday. The opposition worked tooth and nail to form a combination against the Missouri candidate, but the other candidates appear to be reluctant to enter openly into the combat.

The democratic two-thirds rule has always been held to mean that twothirds of the delegates voting should make the nomination. The decision of the gold men to refrain from voting puts Bland in a long lead ahead of the other candidates and makes him much closer to the desired two-thirds vote. than if the entire convention should record its vote for the nomination. Recognizing this, Boies, Mathews and Teller forces are straining every energy to get the gold men to participate in the nomination. Particularly is this true of the senatorial syndicate, headed to Bland, but who, it is said, are

None of the other candidates has yet Bland men away from their candidates. Vice-President Stevenson is more talked of as a dark horse than any being cultivated and distributed by the Teller and Boies forces.

AMERICAN BIMETALLIC UNION.

Likely to Turn the Campaign Over to the Democratic Committee.

Washington, July 9.- The headquarters of the American Bimetallic Union in this city are practically deserted, with Secretary Warner and all the other officers in Chicago awaiting the outcome there. The officials of the union have not decided what they will do after the Chicago convention. If that convention nominates a silver man they say that their work for the present is done, or they hope it may be done. They say they would probably not keep their offices open if the populists and all the other political parties indorse the Chicago nominee. The matter of conducting the fight would be left to the national committee of the democratic party. It would no longer be necessary to keep headquarters open in the various cities. It will not be decided, however, whether the union will shut down business until after the silver convention at St. Louis.

Reveries of Anatole France Over His

Ancient Bible. Anatole France, in the November Forum: At evening I turned over my old Bible with the ancient prints. It was an excellent old Bibb, dating from he commencement of the seventeenth century; the engravings were by a Dutch artist, who had represented the terrestial paradise in the guise of a andscape in the neighborhood of Amsterdam. The hills were covered with paks, grown awry ir the wind from the sea. The meacows, admirably drained, were intercepted by rows of moldy willows. An apple tree, with mossy boughs, represented the tree of the knowledge of god and evil. The animals in view wee domesticated and presented the idea of a farm, with a well regulated poltry yard. There were the oxen, the sheep, the rabbits and a fine horse of Brahant, clipped and groomed, wating to be harnessed to the carriage of the burgomaster. All as the crowds have seen for years past. this enraptured me. I was still more interested in Noah's ark. I can see the spacious and circular hull, surmounted by a cabin made of planks. Oh, marvel of tradition! Among my toys was a Noah's art of an exact similtude, painted red, with all the animals in pairs and Noal and his children standing around tiem. It was a great proof to me of the truth of the scriptures. One of the most interesting of the results achieved by the Russian naturalists who spent some time on the Island of Solowetzh in the north sea laboratory has been the discovery of a remarkable lake on the island of Kildine in the Arctic ocean. This lake, which is completely separated from the sea by a narrow strip of land, was discovered by the Russian naturalist, M. Herbenstein, who was struck by finding in the lake a fish which is exclucommon cod. Under the superficial layer of fresh water is found salt water, supporting a marine fauna -sponges, sea-anemones, nemertines, polychaetes, marine mollusks (chiton aeolis, astarte), starfish and pantopods. The salt water is believed to reach the lake by an underground communication with the ocean.-Exchange.

It seems funny that Wisconsin democrats should be so distressed over free silver. They have swallowed a good many things that are worse, and it makes no practical difference what they do this year, anyway.

One hundred-cent dollars have been the only kind issued by past republican administrations, and they will be the only kind issued by the McKinley administration.

It is still a question whether Grover Cleveland buncoed the democratic party or the democratic party buncoed Grover. Both are loaded up with green goods.

There are people who believe that the officers of some of our revenue cutters are unnecessarily active in preventing Cuban fillibustering.

LOCAL REPUBLICANS ORGANIZE FOR THE LOCAL CAMPAIGN

Chairman W. T. Vankirk Passes Around a Membership List and Finds Democrats Ready to Join Hands In the McKinley, Hobart and Good Times Movement

A republican club of generous membership will shout for McKinley and Hobart in Janesville this fall. Chairman W. T. Vankirk has been circulating the club list and has secured about 200 names. He expects to get 300 more in the next three weeks. The list is headed:

We, the undersigned electors of the city of Janesville, Rock county, Wisconsin, propose to state and local effices, at the polls in November, 1896; and we desire to promote the principles of the republican party as the same are set torth in the platform adopted at the St. Louis conven- Liberty Hall, 8 o'clock tomorrow

We therefore unite at this time for the purpose of forming a republican club to participate in the approaching campaign, in behalf of republican principles and republican candidates. A copy has been left in The Gazette

business office for signatures. Every republican in the city is urged to enroll himself. As will be seen, the club member-

ship includes all who intend to vote for McKinley and Hobart this fall, and several who have signed are recent converts from the democratic camp.

Chairman Vankirk issued the following notice today for the county convention:

Rock County Republican Convention. A republican county convention will be held at the court house in the city of Janesville, on Thursday, July 30, 1896, at 2 p. m., for the purpose of nominating candidates for county officers; also for selecting delegates to the congres sional convention to be held at Beloit August 4, 1896, to nominate a candidate for congress for this district, and the transaction of such other business as may properly come before this con- lors. vention.

The different towns and wards of Rock county will be entitled to delegates as follows: Towns of Avon. Beloit, Bradford, Harmony, Janesville, preent occupying the office of Dr. Johnstown, La Prairie, Porter, two each; Center, Clinton, Lima, Magnolla, Plymouth, Porter, Turtle, Union, Clinton village, Fifth ward of Janesville, three each; Fulton, Newark, Spring Valley, First ward city of Beloit, Edgerton, four each; Second ward city of Beloit, Second and Fourth wards city of Janesville, five each; Evansville, Third and Fourth wards, city of Beloit, six each. First and Third wards, city of Janesville, seven each; Milton, eight. By order County Republican Committee.

W. T. VANKIRK, Chairman. Dated Janesville, Feb. 7, 1896.

A notice for the organization of republican clubs through the county was sent out today:

The several towns and wards in Rock county at their caucuses to be held at special meet- for him. ings, are requested to organize each a republican club, and report to the Rock County Republican convention on the 30th inst., its officers and membership. Prompt action on the part of republicans in the formation of clubs will assist materially in the state and county in the coming campaign. The accompanying declaration of principles was adopted by the Janesville Republican club, and this is sufficient for members to sign in all clubs, as it is desired that all Rock county clubs shall be uniform in organization.

### LOVE IS BLIND.

Feathery palm trees, banks of flowers, softly hued fairy lamps, and delicious strains of ever changing music, all these go to make up enchantment!

So, at least, thought Lord Ronald d'Esterre.

He had but just returned from a two years' sojourn in the heart of Africa, a sojourn filled with dangers and privations; his years numbered but five and twenty, he was possessed of a well knit, springy frame and a keen, clear eye, and he had come back from his travels with fame, courage and endurance, but without a penny that he could call his own.

What was next to be done? This was the problem that filled all his spare thoughts. His elder brother had fitted him out for his expedition with the polite intimation that the act was a virtual washing of his hands of the superfluous cadet; his aunts had kissed him so warmly at parting that he was amazed to find them "not at home" when he returned to London; his godfather had given him a £20 note and such a hearty farewell that it was bewildering to be cut by him when they met once more in the club smoking room. "It really hoarsely, and dropping her hand he seems as if they wish I had never come turned and went. back!" said the young man to himself, with a smile at the incredible idea, but as time passed on his smiles died away, and he ground his teeth savagely as he realized that his relations had thought a most suitable match for my nephew, it a good investment to lay out £500 and an infinity of farewell in the hope of getting quit of a troublesome incum-

The thought was a bitter one and in his first fury he vowed to leave his native shores by the next ship, and never return to them again. But upon the heat of his passion there fell a cooling breath, as if from heaven itself, and the lion was straightway changed into a lamb. Lord Ronald d'Esterre had been though five years could not take the accustomed so long to be looked upon bloom from her cheek, nor the gold from as a "detrimental" that at first he her hair, they could, and did add very scarcely dared to show the attraction materially to the infirmities of her that lay for him in Violet Harvey's ap- frame. Supervisor Bailey, from Committee No. 7 on public buildings, reported as follows and moved To the Honorable Board of Supervisors of Rock

At the meeting of the county board of supervisors of Rock county, January 17, 1895, Judge Sale notified the board that the room in the fire proof vault connected with his office was practically filled, and that additional room would be needed in the near future for filing valuable papers accumulating in his office. A notice was also received from the clerk of the circuit court that only a limited amount of room was available in the vault connected with his office. Several plans were suggested, by which the required amount of vault room could be provided. Oxing to the peculiar location of these vults in the court house, it was found very difficult to enlarge them, and it was suggested that a separate vault be built in the office of the county judge. This was objected to for the reason that all the room was needed for the patrons of that court. It was also suggested that a large vault be built in the basement below the county judge's office. This was thought to be impracticable, for the reason that too much time would be required in going from one story to another for papers especially during sessions of the county court. At a meeting of the board on the 13th of June, the committee on public buildings submitted a plan which provided amore sand recommon to the pressure of the times and recreased taxation and perhaps for other reasons the

As this is a matter in which the preservation of valuable papers is concerned and the process. tion of valuable papers is concerned, and in which the entire county is interested, the county bo rd must be called upon in the near future ty take some definite action in providing addi-tional vault room at the court house. Since the last meeting of the board the court

house has been thoroughly painted outside at a cost of \$255.26. Your committee believes the work has been well done and good material used. The stone walls at the basement entrance were in need of repairs, several of the cut stone having fallen out of place. This repairing has been done. The concrete walk in front of the court house, and the plank walk leading to it have each been put in good order. These several repairs have added much to to the outward appearance of the building and its surroundings. The old carpet in the court room has been removed and is being replaced with a good quality of linoleum, the bill for which has not yet been rendered. Several other bills are outstanding, which will be paid on presentation, and be included in statement of account to
